ISSUE 6 | TERM 1 | WEEK 9A
THURSDAY 24 MARCH 2022

Harmony Week

We celebrated Harmony Week by wearing orange. This dovetails into The Resilience Project where students are currently focused on developing empathy and understanding of other's perspectives.

50th Celebration - Save the date

Please join us on Saturday July 30th - Past students, teachers and staff of Warialda High School over the last 50 years are invited to attend!

Dates to remember.....

Tue 29 March - Parent Teacher Meeting

Thur 31 March - SRC Induction

Fri 1 April - Touch Gala Day Walgett

Fri 8 April - Last school day Term 1

27,28,29 April- Lake Keepit Excursion Yr 7,8 & 9

Oliver Twist Musical Performance

Our Year 9 & 10 Drama class were dipped in fun, crumbed in country culture at the Roxy Theatre, and deep fried in cultural creativity at the local Oliver production. Students thoroughly enjoyed local artists performances. Perhaps this set the stage for future productions.

Hillview visit

On Monday Year 11 Agriculture completed the practical farm visit of their Farm Case Study at "Hillview" Warialda. Students enjoyed a farm tour and completed soil testing while there. We would like to thank James and Rebecca Reardon for allowing us this opportunity to visit their property and who commented how delightful our students were, welcoming our school back in future. Students are now taking what they have learnt in the field to complete their assessment task.

Nicole Simmons | Agriculture Teacher

Stage 4 Art

This term Year 8 have been studying the cultural and structural frames used in visual arts and referring to Mexican artist "Frida Kahlo". Students have identified symbols and ceremonies associated with this culture as well as artist and devilled designs in relation to the "Dia de los Muertos" ceremonial festival. The creations pay homage to departed family members, celebrating their lives. Year 8 have developed designs from reference images to create and complete relief printmaking plates to complete the practical task for this topic.

Sonya Marsh | Design & Technology Teacher

For every action there is an equal and opposite reaction

Year 9 have been studying kinetics and Newton's Laws. Students designed catapults based on ancient machines to investigate the physics behind mass, velocity, speed, distance and time. The group were thoroughly engaged and enjoyed making these tiny machines!

Sonya Marsh | Science Teacher

Lake Keepit to put a smile on Year's 7, 8 & 9

Sometimes we are "lucky" and the stars align in our favour! We are working swiftly on something almost too good to be true. Our school won a ballot, being offered a fantastic sponsored opportunity from the Office of Sport for Year 7, Year 8 and Year 9 to Lake Keepit on 27/28/29 April (first week of Term 2). Information packages have been circulated. Don't miss this opportunity!

Kate La Fontaine | Relieving Deputy Principal

Covid Tutoring Program

We would like to remind parents and care providers that we have after-school tutoring from 3:30-5:00pm, Monday, Wednesday, and Thursday each week. This is free tutoring for students aimed to help fill learning gaps and maximise learning. Every student is eligible to attend, even if they aim to complete tasks. Simply contact the school and complete permission forms. Thanks to the NSW Government for funding this tuition program.
